Miguel Camacho — a champ and his trophies

## Lemon Grove 'Charro' Is Mexican Champion

By MAX GOODWIN

A Lemon Grove man is the riding-roping champion of all of Mexico.

Miguel Camacho, 41, of 3608 Olive St., Lemon Grove, was named top "charro" at Tepic, Nayarit, in May. A charro is an expert rider-roping similar to American bronco-busters but with several additional skills.

Charro competitors work in teams. Camacho is a member of La Fundadora Association de Charros in Tijuana, Mexico. In the past three years the group has earned two second places nationally, and a third.

Some of the events in which charros compete include tail downing bulls, in which bulls are thrown by roping the animals' forelegs, while the horse holds the line taut, the charro twists him to the ground by the tail, similar to Gringo bulldogging. Another favorite is roping bulls in the alley. In this competition the bull charges out of a narrow fenceway and the charro must rope him to the ground in the split-second as he emerges. Another popular event is roping with wild horses in the arena. Points are given to the men not only for their adeptness in throwing these animals, but credit also is given for ropemanship and the control they have over their mounts.

### Building Permits

More than \$400,000 in building permits were issued in this area during May.

In Casa de Oro a permit for \$12,000 was issued.

In Lemon Grove, \$240,000 in permits were taken out, and in Spring Valley \$151,000 were issued.

## 32 from Lemon Grove Among SDSC Graduates

Thirty-two students from Lemon Grove are among those graduating Friday from San Diego State College, some with honors.

The students and their degrees are: Mohammad Bari, AB, Box 673; Virginia Battenfield, AB (with honors and distinction in French); 7309 Carmanita Rd.; Valeria A. Bauman, AB, 2752 Dennis Lane; Edward A. Beaver, AB (with honors and distinction in physics), 8364 Alton Dr.; James R. Bowers, AB, 2195 Bonita; Alice M. Budzinski, AB, 3225 Citrus St.; Sally J. ### Also Have Ranch

Camacho lives with his wife and their four children in Lemon Grove but they also have a ranch in Tijuana, not far from Agua Caliente. On the ranch the two favorite competition horses are kept and trained. "My quarter horse is the best. He is very sensitive to the rein," Camacho said. "My thoroughbred is improving and soon he will be a hard horse to beat in competition."

Training is already under way for the next national competition, which will be at Leon, Guanajuato, Mexico, near Mexico City in May, 1966. There he expects to add to his trophies. In addition to his championship trophy he won, second place nationally in 1964, and four team trophies. He and his team of six to eight riders entered four national events and brought home second or third place trophies each time. Sometimes as many as 50 teams enter these events. Actually, there are about 30 riders who make themselves eligible for the team but the best are chosen through local competition.

### Son Learning Fast

Camacho may have still competition from a family source soon. His son, Juan, 11, a fifth-grader at Golden Avenue School "rides better than some charros," Camacho said. Juan said he will enter the charro competition "as soon as I am old enough."

There is no money connected with charro events, Camacho said. "Only trophies. Some people like to play golf, I like to compete on horseback."

Camacho is employed by American Agar Chemical Co. in San Diego.

## Teen Dance Hall Permit Requested

SAN DIEGO (CNA)—A public hearing on the request for a teen-age dance hall permit in Lemon Grove will come before the Board of Supervisors Monday at 10:30 a.m.

Permit is asked by Wilber L. Keller and John D. Syson, operators of the Broadway, at 746 Broadway, in the former location of the Lemon Grove Piggly Wiggly.

A citizens' group earlier this year asked county officials to deny a license at the Fayaton building, one block west of the Broadway. The Fayaton was the scene of a teenage riot before it was closed by the sheriff's department.

The sheriff's department has asked that the permit request at the Broadway be denied.

## La Mesa to Get New Fire Alarms

An ultra modern telephone fire alarm system that not only will give added fire protection to La Mesa residents, but also may be a factor in possible reduction of the city fire insurance rates, is being readied by Pacific Telephone for activation. The cutover is scheduled for June 21.

First of its kind in San Diego County, the new alarm system has 60 fire reporting call-boxes. The installation of the bright red call-boxes are being completed at strategic locations throughout commercial and industrial sections of the city. The boxes are being placed where there is not normally a telephone available to report a fire.

Lifting of the handset within one of the brightly painted call-boxes brings instantaneous action at the fire station. A monitoring device records the moment (to the nearest 10th of a second) the instrument was lifted from the call-box and the exact time the dispatcher answers the call. A light on the switchboard indicates the box location from where the call is being made.

## 46 Spanish Paintings In New Gallery Show

An exhibition of 46 paintings, "Modern Spanish Painting: Seven Catalan Artists," organized by Sala Gaspar in Barcelona and circulated in the United States under the auspices of the American Federation of Arts, will be on view at the Fine Arts Gallery of San Diego, Balboa Park, June 11 through July 18.

## Tree Control Shifted to Road Dept.

SAN DIEGO (CNA)—A new county ordinance, okayed Tuesday by the Board of Supervisors, shifts from the Parks and Recreation Department to the Road Department the responsibility for controlling planting and removal of trees in public street rights of way.

The ordinance changes the administrative code which gave the responsibility to the planning department but nearly all of planning decisions were made under advice of the park department.

Cletus Gardner, director of the park department, said that 99 per cent of the trees that the county is concerned with are in road rights of way. He said that the system under the code was confusing to the public and cumbersome in operation in county government.

The ordinance proves that park trees still come under the Park Department and that trees on other county land come under the Public Works Department.

The ordinance says, "No person shall trim, prune, cut, break, deface, destroy or remove any tree, hedge or shrub from a public or county highway within the unincorporated territory unless authorized in writing to do so by the County Surveyor-Road Commissioner."

## L.G. 'Lady-Bird' Ready For Powder-Puff Race

Isabelle McCrea, 7155 Mt. Vernon St., Lemon Grove, and her lady-bird co-pilot from El Cajon, will be flying one of the 80 planes taking off from Gillespie Field July 3. Joining her in the flight of the Piper single-engine Cherokee to Chattanooga, Tenn., will be Aileen Saunders, 2015 Wedgemere Rd., El Cajon.

The take-off will be the start of the annual "Powder-Puff Derby"—the 19th Annual All-Woman's Transcontinental Air Race.

Mrs. McCrea, a nurse at Mount Miguel High School, will be taking part in the race for her ninth consecutive year. Licensed as a commercial pilot

with an instructor's rating, she can boast of 2,000 hours of flying time.

### Was WW II WASP

She flew a variety of aircraft during World War II as a WASP pilot, ferrying planes, towing planes, and flying as test pilot. Her son Mike is studying veterinary medicine at Cal Poly, San Luis Obispo. The two returned in February from a trip around the world on the University of the Seven Seas. "Mom" was a nurse and Mike was student.

Mrs. Saunders, sales manager for the U. S. Grant Hotel, has flown 3,000 hours as a licensed private pilot, and was winner of the 1962 International Race. She has flown six Powder-Puff Derby races, won two, and placed second in two others. Her son Frank is a medical student at La Sierra College.

All the pilots have at least a commercial ticket or a private ticket plus an instrument or instructor's rating. It is a handicap race, with each model of aircraft evaluated and handicapped by a special team of experienced pilots.

The pilots have three-and-a-half-days to fly the route of 2,406.78 statute miles across the continent to the terminus at Lovell Field at Chattanooga.

## Some 'Icing' Added To Scholarships By Kiwanis Clubs

Spring Valley and Lemon Grove Kiwanis Clubs joined forces this week on Wednesday to add a bit of "icing" to scholarships for two area students.

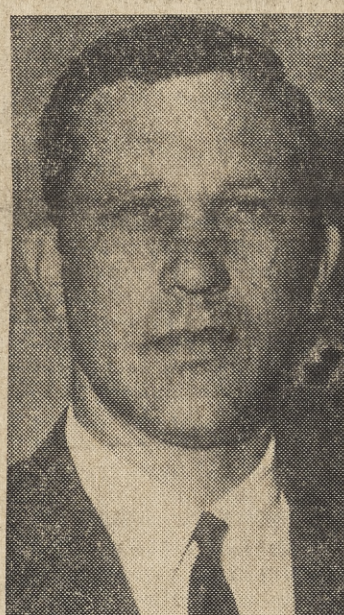

The clubs jointly presented \$60 each to the two students, who recently won the scholarships for college study.

The two were Larry Martinson of Monte Vista High School, who will study architecture at Grossmont College this fall, and Ray Woods of Mt. Miguel High, who will study music at Whittier College.

It was reported that a booklet published by Kiwanis International entitled "You and the Law," has been released to S. V. Kiwanis Club and that 2,000 copies have been distributed to students of Spring Valley Junior High School. More will be given out when new students enroll in the fall.

Guest speaker at Tuesday's Kiwanis meeting was Shirley Clark, a senior at Mt. Miguel High School, and president of Distributive Education Clubs of America (DECA) for Mt. Miguel High School.

continental Air Race. At left is Glenn Copeland, president of VanCamp Sea Foods, and at right is Robert Eskridge, vice president in charge of marketing. Eighty planes are scheduled to take off for the July 3 race from Gillespie Field.

JAMES DORMAN

## James V. Dorman Admitted to Bar

James Vroman Dorman, son of Attorney V. J. Dorman, of 7615 Circle Dr., Lemon Grove, passed the spring bar examination according to the state Committee of Bar Examiners.

His father and his uncle, Wallace Dorman, are practicing attorneys with offices in Lemon Grove and in San Diego. James Dorman was certified for admission to practice law at ceremonies held earlier this week before the state Supreme Court in Los Angeles.

He attended Lemon Grove elementary schools, Helix high school, Pomona College and studied law at California Western University. He spent three and a half years in the Marine Corps. He will enter practice with the law firm of Dorman and Dorman.

## Test for Peace Corps To Be Given Saturday

A Peace Corps placement test will be given Saturday at 9 a.m. in room 219 of the Post Office Building, 815 'E' St., San Diego.

The test is a means of checking aptitudes for Peace Corps service and is not passed or failed. There is no way to study for it. It is used by the Peace Corps as a tool in matching volunteers and jobs.

A Peace Corps application, which indicates suitability for service, must be filled out and brought to the exam unless previously submitted.

## Lemon Grove Bus Driver To Get Safety Award

Rena Ido J. Orlo, 7270 Carmanita Rd., Lemon Grove, a Greyhound bus driver, will be awarded a Safety Award Certificate, uniform insignia, and clock, for 20 years of driving without a recorded accident.

Congress may adjourn by July 1.

## Grossmont District Sets Budget

The Grossmont Union High School District Governing Board, at its regular meeting Monday, approved a tentative preliminary budget of \$11,088,805 for school year 1965-66, as compared to \$10,262,722 finally adopted for school year 1964-65.

The board took particular note of the difficulties involved in the preparation of this budget. The necessity to absorb the capital outlay costs, building costs, additional personnel, and additional supplies for Santana High School, a total cost of approximately \$721,000, posed a severe problem. It necessitated careful line item scrutiny by the superintendent and his staff to achieve economies in operation.

The preliminary budget presented at the meeting will require an 8 to 9-cent raise in the tax rate, according to Superintendent John T. Warburton.

"Had these economies not been exercised," he said "the cost of building and equipping the new school could have amounted to 30 cents on the present tax rate."

### "Dangers" Cited

Warburton told board members this particular budget has inherent dangers "because it represents another year of status quo, a failure to advance in fact, a severe retrenching in some areas of the budget."

He further indicated that continuation of this austere program will result in deterioration in faculty morale and in an ultimate loss of educational quality if the district fails to maintain its leadership in teacher salaries and educational innovation.

### Employee Organizations

Four employee organizations made presentations to the governing board regarding the budget. The Employees' International Union, AFL-CIO, requested a 10% increase in salary for all custodians in the district; the American Federation of Teachers, Grossmont Chapter, a salary schedule for teachers ranging from \$6,000 to \$12,000 with ten steps; the CTA (California Teachers' Association) a 5% increase in teacher salaries, anniversary increments, and disability insurance; and the Faculty Senate, a district-wide reading program in addition to the aforementioned anniversary increments and disability insurance.

The Governing Board will consider these requests as well as the general budget at its July 6, 1965, meeting.

## The DIMMER VIEW

by MAX GOODWIN

### Go West? Young Man

A story was unravelled last week concerning a man arrested in this area who has spent many of his 24 years within prison walls. The sad but simple story was related to us by our correspondents at the County Assn.

The man, LeRoy Jiron, a bartender whose most recent address is listed as Washington, D. C., thinks his life's purpose must be to be in jail. Accordingly, he will spend 90 more days in prison here, but with a psychiatric study to enable the court to modify his sentence.

Jiron was arrested recently in Potrero and arraigned in El Cajon Municipal Court on an auto theft charge. Jiron was abandoned by his parents when he was three; classified as a delinquent when he was eleven. Little of his adult life has been spent anywhere but behind bars.

Jiron's desire for freedom, with which he has had so little contact, led him to try to prepare for it following his latest arrest. When he was booked in County Jail following arraignment in El Cajon Court, deputies found two six-inch hacksaw blades in his shoes. He was then charged with carrying concealed weapons and articles that would be useful in making an escape from jail.

"When I lay my life out in front of me like a book, I get depressed," Jiron told probation officers, "Everyone is here for a purpose, aren't they? Mine must be to be in jail. That's no purpose. I might as well forget it."

But Superior Court Richard B. Ault told Jiron he would not forget it. He gave Jiron 90 days and order a psychiatric study. Jiron said there was "one time" in which he "thought he had it made—knew how to get along on the outside."

He said he got a dishwashing job in a bar in 1964 after being released from Leavenworth. "I worked hard seven days a week and three or four hours overtime each day."

"I thought I had it made. I was sharing an apartment, had good clothes, a good job and was having responsibilities. I was beginning to learn the rules. They even gave me the combination to the safe. I wasn't having trouble with anybody."

Jiron said that uniformed cops visited the bar frequently and asked about the waitresses. One of the cops, he said, "asked" (Continued on Page 4)

The Lord's Day is for spiritual refreshing and physical change and rest. Man needs to worship together with others. He needs to hear the same sermon, sing the same songs, enter into the same prayers and support the same program. Presence at the House of God will spare from falling into the pit of self elevation.

 Assembly Manager  
 For Jehovah's Witnesses

## Witnesses Plan For Assembly

"Indispensable in keeping the Christian family together is God's Word, the Bible," said Carl E. Jones, minister of the Lemon Grove Congregation of Jehovah's Witnesses.

Jones announced that the 24 congregations of San Diego County that regularly assemble together locally will be joined by 350 other congregations of the Southwest for a huge bilingual Bible conference at Balboa Stadium, July 8-11. Three thousand Spanish-speaking Witnesses are expected.

"This conference will be like holding a very large family reunion giving everyone a feeling of closeness," Jones said. "Old friendships will be renewed, experiences exchanged and future prospects will be discussed."

A meeting was held Saturday under the chairmanship of Shield Halvajian, assembly manager, at Russ Auditorium to begin a search for rooms to house visiting delegates. Hotels, motels and private homes will be called on.

Jones said the theme of the assembly will focus attention on God's "Word of Truth." Practical counsel on the problems of everyday life will be considered. The Bible's place in the modern home and how to use it as a family will be some of the fine instruction that will be given to help keep the Christian family united.

## Lutheran Women Schedule 'Project Day'

## GOD'S MINUTE

REV. H. C. BAKKEN  
 — GIFT FROM HEAVEN —

Last Sunday was Pentecost. Fifty days after Jesus' Resurrection from the dead and ten days after His Ascension, the Father and the Son sent the Holy Spirit to come upon the early believers and to abide in the hearts of all true believers. The Holy Spirit enables us to recognize our need of forgiveness of sins and helps us to turn to God. When we turn to God, He creates a new life in us and we are born into God's Kingdom and household.

## Funeral Services Held For Harvey McHenry

Funeral services for Harvey McHenry, 69, of 4158 Calavo Dr., (Homelands) La Mesa, will be held this week on Friday at the Little Chapel of the Roses, Glen Abbey. Burial will be in Glen Abbey Memorial Park.

## Church Service Seeks Fabrics For Viet Nam

An urgent appeal is being made to Protestant church members throughout the country to give parcels containing cotton yard goods, sewing needles and thread for the use of Vietnamese refugee women in making seriously-needed clothing for themselves and their families. It has been announced by Church World Service.

"Differences in custom and stature of the Vietnamese determined in this instance our appeal for fabrics rather than used clothing," said Wilson Radway, associate director of material resources for the Church World Service Department of the National Council of Churches.

"Vietnamese women do not wear Western style clothing, and are small in stature. We have been informed that the majority of women know how to sew, and that few gifts would be more appreciated than fabric parcels. We have had countless queries from American church members as to how they can help the Vietnamese."

Donors should be sure to designate that the parcels are for Vietnamese refugees, and mail them to the Church World Service center for processing and shipping overseas, located at 137 N. Fair Oaks Ave., Pasadena, Calif. 91101.

He reported to officers that an old black and white car with five or six boys, who appeared to be about 16 years old, careened close to him and one of the boys leaned out of the window and threw an object at him, striking him.

Officers noted the boy's bruised chest, but were unable to locate the object, possibly a salt shaker, in the area.

### 27 gals. Gas Siphoned

me to make a date with one of the girls. I told him if he were man enough he would go do it himself."

"The next day he came back with a plainclothesman and an old warrant (against me) that had been dismissed. They questioned me right in front of my boss. That lost me my job. They took me down to the station and while they were making phone calls, I left. I came out here."

In California, Jiron said, he worked as a bar dishwasher for a meal a day until he lost his job. He decided to travel and stole a car in Long Beach and headed for Arizona via San Diego.

His car broke down before he reached Barrett Junction so he abandoned it and started hitchhiking. Ben Patterson, a county road department employee gave him a lift and became suspicious. He reported his suspicions to the Sheriff's office. Jiron was apprehended and relieved of a hunting knife and booked in County Jail Feb. 18. He was found guilty May 13 and sentenced Friday by Judge Ault.

## A Cheer For the First Slap At Obscenity on the Campus

The Assembly last week missed an opportunity to pass into law a Bill permitting college officials to toss non-student rascals off the campus. The Bill, based on trespass, was withdrawn and its future fate is not known.

The Bill, if it had passed, would have returned to the public some hope for the rebuilding of faith and respect in our system of higher education. This hope is not entirely lost. Many of us feel that a more rational force than that of the "free speech" movement in Berkeley and elsewhere will eventually be the guidelines our universities.

The need for such legislation is accentuated by the concern that many of us have regarding the loss of freedom resulting from allowing crack-pots to put their own interpretation of this valuable commodity and still call it freedom.

Over the years we have seen those who would abort the rights spelled out in the Constitution take advantage of semantics. In a glib-tongued explanation of individual rights, they have divested us of many of these rights.

Certainly there is a right we have to protect our children and our wives from obscenity and vulgarity. Yet, these liberal thinkers tell us that their freedom is being violated by denying them such a privilege. These guys deserve nothing less than a punch in the nose—as they would have gotten a generation ago.

Some liberal Supreme Court judges, many of them appointed by a liberal political hierarchy, have developed decisions that are a pat-on-the-back to those who would subvert the true meaning of the Constitution, and the established order of freedom as was intended in a democracy.

Many sincere educators have been distressed by ultra-liberal interpretation of Constitutional rights of these latter-day professors who have become more and more vocal. Projecting ultra-liberal freedom to its fullest, it would allow any sort of public vulgarity, obscenity and filth. A test as to who these ultra-liberals are is to probe and find the agitators who are determined to impose these obscenities on you.

As a youth we vomited during the first (and last) vulgar movies we observed.

We believe that there are many people like us. We believe it is incumbent upon us to tell these crackpots what the meaning of the Constitution is and to demand that "our" rights also be respected.

## Public's Report Sought On Discrimination

Californians who know of discrimination occurring in any agency financed with State or Federal funds and providing mental health services, have asked to contact the State Department of Mental Hygiene.

The request by Dr. James V. Lowry, the department's director, complies with statutes which require public notice in forming citizens whom they should contact if the Federal Civil Rights Act of 1964 is violated.

### Fishing Gear Missing

C. E. Banister, 1800 Skyline Dr., reported the theft of three fishing rods and reels from his garage.

### Gas Tank Siphoned

LeRoy D. Asher, 7375 Beryl St., reported that 10 gallons of gasoline were siphoned from his car, parked at the house, and the side mirror stolen sometime during the night.

## WHERE ARE THE MARKETS?

Typical of the kinds of economic studies California's Economic Development Agency becomes involved in is the current effort to determine exactly where the markets are for goods produced in the state. Questionnaires mailed to 3,200 manufacturers and food processors are expected to provide the answers.

## Check Bike Safety Now, Highway Patrol Urges

Warm weather is here, school will be out in a few days, and youngsters are turning with renewed interest to their bicycles.

To prepare for a summer of trouble-free riding, youngsters should check now to make sure their bikes are in top-notch condition, taking particular care to assure that brakes and lights are in good working order, Bradford M. Crittenden, Commissioner of the California Highway Patrol, said.

"Bicycle brakes must be able to make one wheel skid on dry pavement. For after-dark operation, bicycles must be equipped with a white light on the front—visible for 100 yards—and an approved reflector on the back, also visible for 100 yards. The rear reflector can be supplemented with a red light."

The Commissioner emphasized the critical danger to which bicycle riders are exposed when they ride at night without lights.

"Bicyclists frequently escape a motorist's vision even in daylight. At night the driver has a far more difficult time. Often he can be virtually on top of a bike before he sees it. Putting the required light on a bicycle is a matter of simple self-protection," he declared.

## Bullfighter Is Gored In Tijuana Bull Ring

TIJUANA — Tragedy marred the afternoon here Sunday at the downtown bullring when matador Pepe Luis Vasquez was severely gored by his second bull. He was awarded an ear after being carried from the arena.

The unfortunate event overshadowed the exciting debut of young Gabino Aguilar, who won two ears. Matador Raul Garcia heard applause, but got no awards.

Physicians reported Tuesday that Vasquez will leave the hospital June 15 and will be flown to a bullfighter's hospital in Mexico City, and where he will remain for another week. The 42-year old ring veteran said he hoped to fulfill a contract calling for his appearance on July 4 in Monterrey, Mexico.

Next Sunday, Serranito, the young Spanish matador who made his first local appearance here May 30, returns to share the spotlight with Mexicans Antonio Del Olivar and Antonio (El Nayarit) Duarte. The program begins at 4 p.m.

In Sunday's accident, Vasquez was caught hard by the bull's horns as he attempted a natural pass. The crowd screamed as he fell to the sand and rolled away from the bull.

Despite obvious pain and profuse bleeding, the veteran matador waved his helpers away and dispatched the bull on the second try. An ear was awarded after the matador was carried to the infirmary.

Plaza doctors said Vasquez had a two-inch puncture wound with four trajectories in the lower left thigh.

## 'Trouble-Shooters' From Mt. Miguel Win Detroit Trip

Competing against some fifty-eight fellow high school student mechanics from San Diego county, two Spring Valley teenagers won a trip to Detroit by capturing first place honors in the Plymouth Trouble Shooting Contest Regional Finals held at El Cajon Valley High School.

First place went to Gary Reiter, 16, and Joseph Pirano, 16, students at Mt. Miguel.

Their instructor is Dan Loreman. The winners required only 33 minutes, 42 seconds to locate and repair some two dozen malfunctions hidden in the engine of their 1965 Plymouth contest car.

The contest is one of fifty-

three regional contests being held in 29 states involving more than 50,000 students from 1,550 participating schools.

The winning team and their instructor will be flown to Detroit as guests of the Chrysler-Plymouth Division to compete in the National Plymouth Trouble Shooting finals June 21, 22, and 23. Scholarships worth approximately \$16,000 will be awarded the top ten teams, some \$20,000 worth of tools and equipment awarded for school classroom use.

State College Changes Application Deadline

June 22 has been set as the new deadline for applications for admission to the fall freshmen class at San Diego State, according to President Malcolm A. Love.

Applications from sophomores, upperclassmen and graduates will still be accepted until July 15, the original deadline. The new cut-off date for freshmen was decided when it was discovered there would not be sufficient professors to handle students desiring to enroll in September Love said.

According to enrollment predictions, more than 17,300 students hope to attend San Diego State in the fall, but the staff is some 60 professors short of the number needed.

Tax Relief Seen Goal Of Reform Legislation

Assemblyman James R. Mills of San Diego has released the first estimates on how the San Diego Unified School District would be affected by the tax reform package introduced by Assembly Speaker Jesse M. Unruh and Assemblyman Nicholas Petris. Their tax reform measure calls for a massive infusion of new state aid to schools in order to reduce property taxes. The main revenue would be derived from an additional one cent on the sales tax.

"The San Diego School District will be one of the prime beneficiaries under this bill," Mills said. "As it stands now, the school tax rate for everything except bond payments would go down from \$3.20 to a flat \$1.90 which is the basic rate set for districts operating all grades from kindergarten through junior college."

Quebec is Canada's largest province.

## Retired Execs Aid Small Firms

Does your business need the benefit of skilled advisors? The U. S. Small Business Administration has formed SCORE, the Service Corps of Retired Executives, to make use of the skills of retired executives and aid small businesses in finding free consultation and assistance.

"These retired executives are concentrating their skills, training and experience on management problems that beset small businesses. Many of them are at the peak of their knowledge about the ways of business and are anxious to keep their 'hand in' the business world," Alvin P. Meyers, Los Angeles Regional Director of the Small Business Administration said. "More than 100 of these retired executives are now working and assisting small businesses all over Southern California. We are focusing on businesses with 25 employees or less."

Any small business concerned with the services and help of SCORE should write Small Business Administration, 312 W. 5th St., Los Angeles 13.

## Health Officials Urge Caution in Insecticide Use

The San Diego Department of Public Health has cautioned against careless use of insecticides.

Dr. J. B. Askew, director of public health, said that every year during the warmer months when household and garden pests are most active, a number of persons are treated by private physicians in San Diego County for various types of insecticide poisoning.

He said those illnesses most commonly treated by physicians are caused by inhalation. Dr. Askew advised persons mixing insecticides for garden use to do so in the open air. Always spray them downwind, never into the wind.

When an aerosol bomb or other insecticide spray is used in the house, it should be used in a room with good ventilation. Insecticide sprays can be extremely harmful if inhaled. Never spray them directly at a person. Avoid having the spray blow back into your face.

Never use insecticide around exposed food, cooking ingredients, or cooking or eating utensils.

Hands should be washed after using any insecticide. Dr. Askew said. If the insecticide is spilled on the hands or any part of the body, it should be immediately washed off, he cautioned.

Basic Precautions

He also advised these basic safety precautions.

Before using an insecticide indoors or out, read the label and follow directions.

Always store an insecticide in its original container, never in a food or beverage container which might lead a small child into thinking the contents could be consumed.

Store insecticides in a safe place, out of reach of children. If insecticides are kept in the house, store them in an area where they cannot contaminate food or cooking or eating utensils.

In mixing insecticides for the garden, use a pail or drum, never a seed, food or beverage container. Measure insecticides accurately, use only the amount recommended, and be sure they are thoroughly mixed. Pour insecticides carefully to avoid spilling. If any is spilled on any part of the body, wash it off promptly.

If the label recommends protective clothing, be sure to follow the precautions recommended.

## California's Cow Population Drops

California's human population is now approaching a record high of 19 million, but the state's cow population is declining.

The reason, according to the Dairy Council of California, is not a lack of appetite for dairy products, for Californians are using record amounts of milk and food made from milk. The reduction of the state's cow population from 798,000 bovines a year ago to an estimated 790,000 animals today is due to increased production per cow.

The average California dairy cow is producing almost 11,000 pounds of milk per year, up from 10,400 pounds a year ago and considerably ahead of the national average of under 8,000 pounds.
